{product id=661}

38" Adult male Avalanche (Snow Bloodred) Corn Snake. His \$250.00 price includes to all of the lower-

He is still in brumation since 10/11/13. He is-of course-eating frozen/thawed adult mice.
His SMR id is AOR.

Though the breeder of the parents of this snake never mentioned it, the shade and amount of yellow in this snake suggests that it could have the Ultra mutation in it's genome? Ultra mutants (therefore, Ultramelts) are inter-species hybrids of Gray Rat Snake x Corn Snake.
