

FOR \$ALE

{product id=800}

This 2014 female aberrant *Buf Tessera* corn snake has a lot to offer corn snake breeders. Because both of her obvious mutations (*Buf* and *Tessera*) are dominant to wild- type, both can be demonstrated in the first generation of breeding this snake to another. No waiting two generations to see target product. Her \$425.00 price includes She is also 50% possibly het *Amel*, but I particularly like the wide and contiguous stripe on her tail.
