

Though I'm showing you one male and one female Coral Snow corns (unrelated), the 25" male is toDAY's featured snake for sale. The female (lower and more pink) was published on March 5th's SOTD and Daily FaceBook Feature. She is still currently available for \$225.00 shipped to any of the lower-48 United States and the male featured toDAY (the most coral-colored) is \$275.00 shipped. Together, the paired price for them is \$450.00 shipped.
