

Show & \$ell

{product id=1226}

If you think it is too late to get into the Scaleless Corn race, this 2014 male corn could give you the edge you need? He is 29" long, eating frozen/thawed hopper mice. His father is a Scaleless so he is het for Scaleless. His \$425.00 price includes ALL Scaleless corns in the hobby toDAY derive from the original pairing of a Corn Snake to an Emory's Ratsnake (aka: Great Plains Ratsnake) so they are all technically inter-species hybrids. If this beautiful male is not sold before December, he will be brumated so he can be a 2016 SMR breeder.
