{product id=690}

30" female Hypo Bloodred corn snake. She has a spinal kink approximately where the pelvic girdle would be at the base of the tail (see picture inset). Feeding on frozen/thawed fuzzy mice (two fuzzies showing in this pic). Her \$100.00 price includes That price is below market value because of her spinal kink-which has never caused a problem, has never grown in size disproportionately, and I do not expect it to ever be a problem later in maturity.
