{product id=2098}

This 11" female 2018 Leucistic Gray-banded Kingsnake (*Lampropeltis alterna*) is currently eating frozen/thawed small pinky mice. Being nocturnal crevice dwellers, Alterna all have a relatively shortened snout and large eyes for seeing better at night-and in crevices, but being a blue-eyed, white serpent, this one obviously has GINORMOUS eyes-like most blue-eyed, white snakes. I never fed lizards to this snake, nor did I ever lizard-scent pinkies, but I did start her on live newborn pinky mice. She has not hesitated to take frozen/thawed pinkies now for her last nine meals. \$995.00 plus \$39.00 flat-rate Overnight Domestic Shipping to any of the lower- Whoever buys this snake will receive a \$200.00 South Mountain Reptiles credit voucher that can be redeemed for anything for sale on our web site for a period of one year after purchase. That voucher is transferable to anyone, so if they don't see anything they want on our web site they may trade, gift, or sell the voucher. We ask that the recipient of the voucher advise us if it is transferred.

Domestic Overnight Shipping is FREE if you order before January 1, 2019.
