This 23" male 2018 Amel corn snake is possibly het for Scaleless, since both parents were het for Scaleless. He is currently eating frozen/thawed Fuzzy mice. \$115.00 plus \$39.00 flat-rate domestic

note: ALL Scaleless corns in the hobby toDAY (including SCALED corns that are carriers of the Scale-less mutation-aka Het Scaleless) are descendants of the original pairing of a Corn Snake to an Emory's Ratsnake (aka: Great Plains Ratsnake). Therefore, all Scaleless corns (and their scaled siblings) are inter-species hybrids.
