{product id=1835}

Our last two 2017 Scaleless female corns without color or pattern mutations are now for sale. They are approximately 15" long, eating frozen/thawed pinky mice. They are \$600.00 USD each, and that includes note: ALL Scaleless corns in the hobby toDAY (including SCALED corns that are carriers of the Scale-less mutation-aka Het Scaleless) are descendants of the original pairing of a Corn Snake to an Emory's Ratsnake (aka: Great Plains Ratsnake). Therefore, all Scaleless corns (and their scaled siblings) are inter-species hybrids.
