{product id=1654}

This 2016 20" female Scaleless eXtreme Okeetee is currently eating unaltered frozen/thawed medium-pinky mice. She was only recently available, as the customer for whom I was holding her decided not to get her. Her \$660.00 USD price includes Her belly *scute* pattern is highly variable. Her father has an almost completely and evenly bifurcated belly scale print, but this female demonstrates an other-worldly belly scale arrangement that exhibits just about all of the different belly scalation we see in Scaleless corns.

Belly scalation of toDAY's featured SMR corn snake.
