

Anerythristic A Corn Snake

Male

d.o.h. 2011

30" long on Jan. 9, 2013

This male 2011 Anery Corn is now 30" long and eating frozen/thawed hopper mice. His father is a Blizzard Het for Anery so he is either a Charcoal Homozygote or Heterozygote, in addition to being an Anery mutant and 100% Het Amel (therefore, Blizzard AND Snow).
