

## Show & Tell

Not easily captured via photography (but I think I actually nailed it), the reds on this corn are very atypical for even an Amel with Fire (Amel Bloodred) parentage (sire was Bloodred Het Amel-from Cayenne Fire Line)? I can't wait to see how this one looks as an adult. BTW, "yes", it does remind me of a Strawberry? **BELLY PIC . . .**

Belly shot of the same snake.
