

44" adult 2009 female Diffused Kastanie (aka: Rosy Bloodred) corn snake just out of brumation. She is currently eating frozen/thawed Adult mice; *belly bulge is from a very large mouse she ate an hour before this picture*. She brumated from October 20, 2014 to February 10, 2015. Her typical annual two clutches of eggs last year rendered a total of 26 beautiful babies. Her \$275.00 price includes
