

## Show & Tell

Female Snow corn, owned by Catherine Turley. This one is close to the BONE WHITE Snows we saw more of a couple of decades ago in this hobby. Except for subtle color tones, this is one of the whitest I've seen in a long time. This color scheme is not rare among WhiteOut (Blizzard Bloodreds) and Avalanche (Snow Bloodreds), but I see no markers for Diffused/Bloodred in this corn's pattern.
