Hypo Lavender Motley

Male

d.o.h. 2010

28" long on March 2, 2013

**\$110.00 Shipped**

From the *SCRATCH AND DENT DEPARTMENT*, this 28" 2011 male Hypo Lavender Motley has several minor spinal kinks. He hatched with these anomalies and they have never impacted his behavior, demeanor, feeding, digestion, or shedding. Nor do we think they ever will. He's priced for *pet grade*, but there is no inherent reason he can't breed. He eats frozen/thawed large fuzzy or small hopper mice.
