toDAY's SNAKE of the DAY (Fri. Mar. 29, 2013)

Details

#032913

Buckskin Okeetee

Female

d.o.h. 2011

34" long on March 25, 2013

**\$175.00 shipped**

Comments: This particular Buckskin Okeetee has great banded pattern, but is inferior quality for our Buckskin Okeetee color standard. Her black blotch margins are too small to be considered a good example of this morph, but she will make a fine pet and breeder. She is less than two years old and was brumated from December 15th, 2012 to March 16, 2013.

Buckskin Okeetees are the result of selective breeding toward the obvious tan ground colors that accentuate the red markings. They should have prominent thick, black blotch margins.
