

Show & Tell

Update: Cotton Candy Corns produced by Graham Criglow. Larger of the two was featured back in December, demonstrating his transformation from shocking pink to deep coral (almost orange) at maturity. The other is a 2013 hatchling acquired from John Finsterwald, who got it from Graham as a hatchling. See SOTD 12-01-14 for more history of this beautiful morph. We should have 2015 hatchlings for sale this summer.
