

## Show & Tell

2017 Scaleless Anery Corn Snake engulfing a frozen/thawed 2-DAY-old pinky mouse. Nom, nom, nommmnnmmnnmmmmnm.

note: ALL Scaleless corns in the hobby toDAY (including SCALED corns that are carriers of the Scale-less mutation-aka Het Scaleless) are descendants of the original pairing of a Corn Snake to an Emory's Ratsnake (aka: Great Plains Ratsnake) and are therefore technically inter-species hybrids.
