ToDAY's SNAKE of the DAY (Thu. April 18, 2013)

#041813

Striped Ghost Bloodred

Male

d.o.h. 2011

34" long on April 16, 2013

**\$250.00 shipped**

Comments: Beautiful mature pattern and coloration for its size/age.

This particular mutational compound ends up being somewhat monochromatic, but if you look closely you can see some of the orange coloration where it's partial striping is on the dorsum near the head and in faint, random and isolated spots down the back. In addition to that, with more maturity, some latent carotenoid yellow will be more visible on the chin and neck, spreading toward the tail more and more each year throughout its life.
