

Show & Tell

This 2017 Scaleless corn snake (from het Scaleless Sunglow Motley parentage) will be for sale in a couple of weeks, after demonstration of appetite and digestion.

note: ALL Scaleless corns in the hobby toDAY (including SCALED corns that are carriers of the Scale-less mutation-aka Het Scaleless) are descendants of the original pairing of a Corn Snake to an Emory's Ratsnake (aka: Great Plains Ratsnake) and are therefore technically inter-species hybrids. **Bonus pic**
