

The *Snake of the Day* headliner of this web site features photographs that we believe will interest our web site visitors. Each daily photograph will be posted at 11:00 am. central (GMT - 5) and replaced in 24 hours. Feel free to make *suggestions* regarding what snake photographs you would like to see in this daily feature. The animals pictured here are not for sale, unless otherwise noted, but you can find available surplus snakes for sale on the *Surplus Page* of this web site. We appreciate your patronage and welcome any *suggestions* you may have.

Scaleless Anery Corn Snake laying eggs. They should hatch in early-June and be ready for shipping by mid-June. Note her few and random groupings of scales. Seldom are any of the rare scales on a Scaleless Mutant recognizably normal in size or shape. It is not uncommon for corn snake eggs not to be bright white, but these eggs are fertile and will hatch normally.
