

Show & Tell

This 2017 Scaleless Tessera corn snake hatched on April 28th. After a few meals, he/she will be offered for sale.

note: ALL Scaleless corns in the hobby toDAY (including SCALED corns that are carriers of the Scale-less mutation—aka Het Scaleless) are descendants of the original pairing of a Corn Snake to an Emory's Ratsnake (aka: Great Plains Ratsnake) and are therefore technically inter-species hybrids.
