

Show & Tell

This Shatter (Sunkissed Cinder) laid 17 nice eggs for me on May 4, 2018, so in roughly 75 DAYS we will be offering the hatchlings. They were sired by a Cinder Tessera so the brood will include Cinders and Cinder Tesseras, all het for Sunkissed. If I'm pleasantly surprised to discover that the Cinder Tessera is het for Sunkissed, I may also be selling Shatters and Shatter Tesseras. Line up if you would like to be on the Reservation List for the hatchlings.
