

The Snake-of-the-Day headliner of this web site features photographs that we believe will interest our web site visitors. Each daily photograph will be posted at 11:00 am. central (GMT - 5) and replaced in 24 hours. Feel free to make **suggestions** regarding what snake photographs you would like to see in this daily feature. The animals pictured here are not for sale, unless otherwise noted, but you can find available surplus snakes for sale on the **Surplus Page** of this web site. We appreciate your patronage and welcome any **suggestions** you may have.

Most of our Miami Okeetees have great red markings - like this pair. The female in this "*marriage*" pic must have been a little camera shy by doing the *Ostrich* thing the minute I got the camera. Perhaps she doesn't want her family and friends to recognize her if they happen across my web site? We expect to have some of these beautiful corns available for sale in mid-July. Some of our Miami Okeetees resemble milk snakes, and I've had a few that were close to the color and pattern scheme of Gray-Banded King Snakes (*Lampropeltis alterna*). BTW, I love the **red** rabbit caricature on the male.
