

## Show & Tell

2017 eXtreme (?Amel?) Tessera, parents of which were RED FACTOR BLIZZARD X TESSERA, HET BLIZZARD. I suspect / hope this is actually a RedFactor Blizzard Tessera, but it will take a few months before discerning if the color we're seeing demonstrates Amel Tessera or RF Blizzard Tessera? If the former, it will have much deeper colors at maturity. Fingers crossed (when I'm not typing or taking photographs). **Bonus pic**

< style="font-size: 12.16px;" />

Same snake in different lighting and pose.
