

The Snake-of-the-Day headliner of this web site features photographs that we believe will interest our web site visitors. Each daily photograph will be posted at 11:00 am. central (GMT - 5) and replaced in 24 hours. Feel free to make **suggestions** regarding what snake photographs you would like to see in this daily feature. The animals pictured here are not for sale, unless otherwise noted, but you can find available surplus snakes for sale on the **Surplus Page** of this web site. We appreciate your patronage and welcome any **suggestions** you may have.

The ultimate Blizzad corn snake lacks all **carotenoid** yellow coloration and has little or no markings. One of these two Blizzards shows some of its markings (because she is a Snow Blizzard), but neither has any **carotenoid** yellow. Good ones like these are difficult to find. Most of the Blizzards produced here will mature to have little or no carotenoid yellow and markings.
