This 2013 female Okeetee corn is now 28" long, eating frozen/thawed hopper mice. She is the product of pairing an Extreme Okeetee with a Buf so you decide what to call her. Her cage was originally marked BUF because she was so yellow as a hatchling, but now, I'm not sure enough to call her a BUF. Hence, I'm pricing her as if she were just a beautiful Okeetee that's one year from being breedable. Her \$185.00 price includes
