

The Snake-of-the-Day headliner of this web site features photographs that we believe will interest our web site visitors. Each daily photograph will be posted at 11:00 am. central (GMT - 5) and replaced in 24 hours. Feel free to make **suggestions** regarding what snake photographs you would like to see in this daily feature. The animals pictured here are not for sale, unless otherwise noted, but you can find available surplus snakes for sale on the **Surplus Page** of this web site. We appreciate your patronage and welcome any **suggestions** you may have.

I am hoping this corn (hatched three DAYS ago) is a Diffused Sunkissed Kastanie. His parents are the products of pairing a Rosy Bloodred (aka: Kastanie Bloodred Corn or Diffused Kastanie) to a Sunkissed Corn. I'll show pix of him again in a year, when we may have a better idea of his genotype. Naturally, no declarations can be made until results of breeding trials are rendered. It's only a little more pale than Sunkissed Bloodreds I've hatched, so that may be all he is. Only time will tell.
