

The Snake-of-the-Day headliner of this web site features photographs that we believe will interest our web site visitors. Each daily photograph will be posted at 11:00 am. central (GMT - 5) and replaced in 24 hours. Feel free to make **suggestions** regarding what snake photographs you would like to see in this daily feature. The animals pictured here are not for sale, unless otherwise noted, but you can find available surplus snakes for sale on the **Surplus Page** of this web site. We appreciate your patronage and welcome any **suggestions** you may have.

The first brood from this beautiful Extreme Reverse Okeetee began hatching on SunDAY, June 9th. In one week, they will have shed and eaten their first meals. A week later, after a second consecutive successful feeding of unaltered frozen/thawed pinky mice, we will begin shipping orders of these beautiful albino corns. Most of our Extreme Reverse Okeetees are amel versions of our Extreme Buckskin Okeetees (like the dark one pictured in the R/H image).
