The parents of this 13" 2017 aberrant female Scaleless corn snake are both het for Scaleless and Sunglow Motley. Therefore, her colors should saturate with maturity, like most corns in the hobby toDAY? She's currently eating frozen/thawed small pinky mice. Her \$595.00 USD price includes

note: ALL Scaleless corns in the hobby toDAY (including SCALED corns that are carriers of the Scale-less mutation-aka Het Scaleless) are descendants of the original pairing of a Corn Snake to an Emory's Ratsnake (aka: Great Plains Ratsnake) and are therefore technically inter-species hybrids.
