

The Snake-of-the-Day headliner of this web site features photographs that we believe will interest our web site visitors. Each daily photograph will be posted at 11:00 am. central (GMT - 5) and replaced in 24 hours. Feel free to make **suggestions** regarding what snake photographs you would like to see in this daily feature. The animals pictured here are not for sale, unless otherwise noted, but you can find available surplus snakes for sale on the **Surplus Page** of this web site. We appreciate your patronage and welcome any **suggestions** you may have.

This blended image virtually shows both sides of a 2013 hatchling Scaleless Anery Corn Snake. This one has belly scales that overlap the ventral keel (ventro-lateral ridge) but otherwise, random scale clusters are few, and far between. Their “bug-eyed” appearance is the result of scales missing around the eyes.
