

Show & \$ell

{product id=1945}

This 16" female 2018 Scaleless corn snake is currently eating frozen/thawed medium pinky mice. Parents were both het for Scaleless Butter, so she is potentially het for Caramel and Amel. \$455.00 plus \$39.00 to any of the lower-48 United States .

note: ALL Scaleless corns in the hobby toDAY (including SCALED corns that are carriers of the Scale-less mutation-aka Het Scaleless) are descendants of the original pairing of a Corn Snake to an Emory's Ratsnake (aka: Great Plains Ratsnake). Therefore, all Scaleless corns (and their scaled siblings) are inter-species hybrids.
