

Show & \$ell

{product id=1947}

This 26" male 2017 Okeetee is currently eating frozen/thawed medium pinky mice. Parents were Scaleless X Het Scaleless, so this male is definitely het for the Scaleless mutation. \$235.00 plus \$39.00

note: ALL Scaleless corns in the hobby toDAY (including SCALED corns that are carriers of the Scale-less mutation-aka Het Scaleless) are descendants of the original pairing of a Corn Snake to an Emory's Ratsnake (aka: Great Plains Ratsnake). Therefore, all Scaleless corns (and their scaled siblings) are inter-species hybrids.
