

The Snake-of-the-Day headliner of this web site features photographs that we believe will interest our web site visitors. Each daily photograph will be posted at 11:00 am. central (GMT - 5) and replaced in 24 hours. Feel free to make **suggestions** regarding what snake photographs you would like to see in this daily feature. The animals pictured here are not for sale, unless otherwise noted, but you can find available surplus snakes for sale on the **Surplus Page** of this web site. We appreciate your patronage and welcome any **suggestions** you may have.

Two Saffron Motleys (aka: *Sunkissed Butter Motleys*) and one Butter Motley, Het Sunkissed. Note the head pattern distinctions. Not all Saffron Motleys have such atypical corn snake head markings, but most do. Naturally, the Saffron mutants will mature to be bright yellow as adults. These three (and their other siblings) are progeny from pairing a Saffron Motley to a Butter Motley, Het Sunkissed (therefore, Het Saffron).
