

The Snake-of-the-Day headliner of this web site features photographs that we believe will interest our web site visitors. Each daily photograph will be posted at 11:00 am. central (GMT - 5) and replaced in 24 hours. Feel free to make **suggestions** regarding what snake photographs you would like to see in this daily feature. The animals pictured here are not for sale, unless otherwise noted, but you can find available surplus snakes for sale on the **Surplus Page** of this web site. We appreciate your patronage and welcome any **suggestions** you may have.

Sunglow Motleys have always been the deepest colored of all our Amel corn snake morphs over the years. The Snow Sunglow Motleys in this brood will mature to have rather pink/orange coloration that will appear to be barely visible just under the white surface of the markings.
