If you have been waiting for the perfect genotype to make Scaleless Striped Butter Corns, look no further. Not just another pretty snake, this 30" 2013 female corn is het for Scaleless and Striped Butter. Her \$3,000.00 usd price includes Just try to envision an insanely yellow corn snake without the color obstruction of scales? OR a Scaleless Striped Amel or Caramel (byproducts of pairing this snake with another like it). Of course, if you already have a Scaleless corn, breeding him to this female will yield some Scaleless mutants, regardless of what other color and pattern genes are in your Scaleless corn. Read below . . .
