

Show & \$ell

{product id=1739}

This 2017 female **PROJECT** Reverse Okeetee corn snake is approximately 12" long, eating frozen/thawed small pinky mice. This PROJECT corn's parents were a Butter Motley het Sunkissed X eXtreme Okeetee. I anticipate that she will have lipstick red markings and an overt yellow ground color at maturity? Her \$155.00 USD price includes **Bonus Pic**
