

The Snake-of-the-Day headliner of this web site features photographs that we believe will interest our web site visitors. Each daily photograph will be posted at 11:00 am. central (GMT - 5) and replaced in 24 hours. Feel free to make **suggestions** regarding what snake photographs you would like to see in this daily feature. The animals pictured here are not for sale, unless otherwise noted, but you can find available surplus snakes for sale on the **Surplus Page** of this web site. We appreciate your patronage and welcome any **suggestions** you may have.

Of course, these four corn snakes are recognizable as Amel mutants by virtue of their red eyes, but isn't it amazing

how vastly different they can be from the effects of selective-breeding? The more-orange ones are Extreme Reverse Okeetees and the red and white ones are High-white Reverse Okeetees.

Ps, I love the white dots on the head of the top snake.
