

The Snake-of-the-Day headliner of this web site features photographs that we believe will interest our web site visitors. Each daily photograph will be posted at 11:00 am. central (GMT - 5) and replaced in 24 hours. Feel free to make **suggestions** regarding what snake photographs you would like to see in this daily feature. The animals pictured here are not for sale, unless otherwise noted, but you can find available surplus snakes for sale on the **Surplus Page** of this web site. We appreciate your patronage and welcome any **suggestions** you may have.

These siblings are progeny of two corns het for Kastanie and Sunkissed. The upper corn is the target product, Sunkissed Kastanie and the other is a brightly-colored Sunkissed corn. I don't yet know how these will look as adults because unless I'm mistaken, all the Sunkissed Kastanies in the world are hatchlings this year? If mistaken, surely Frank or someone else in Europe has adults of these by now. If they send me a picture of one, I'll feature it on SOTD to show an adult example of this beautiful morph compound.
