

## Show & Tell

This Cayenne Fire is the result of pairing two Cayenne Fires produced by John Finsterwald of *Colorado Corns* whose parents were from a Cayenne Fire bred to a Whiteout (Blizzard Bloodred). I will know in a few months if it's actually a pied-sided Fire, but I've seen this look in many Fires and Bloodreds that did not indicate they were P/S mutants. Thanks, John, for the awesome project. No, this one will not be this color for very long. It will get redder every weeeek, until it will finally be almost completely red as an adult.
