

Siblings of the same brood; Sunkissed Motley, Amel Sunkissed Motley, Honey (Caramel Sunkissed) Motley, and Saffron (Butter Sunkissed) Motley. Like ALL SMR Sunkissed corns of any color and pattern combinations, these derived from the Honey projects of CCCorns.com (Chuck Pritzel and Connie Hurley) — most of whose founding Honey stock originated here at SMR. Chuck and Connie's first Honeys were produced by SMR corns het for Sunkissed and Butter Motley.
