

Show & Tell

More monochromatic than yesterDAY's Caramels, and certainly NOT all of the morphs in the DILUTE COMPLEX, here are three corn mutants with the base color-gene mutation, DILUTE plus one Anery Tessera, one Pewter and one Pewter Tessera; DILUTE Pewter Tessera, DILUTE Pewter (aka: Blue Pewter), PEWTER Tessera (aka: Blue Tessera), PEWTER, and ANERY Tessera. Most of these were produced by John Finsterwald (aka: ZORRO). Thanks John for all the new toys.
