This 11" female 2017 eXtreme Reverse Okeetee Tessera is currently eating frozen/thawed pinky mice. Her \$265.00 price includes "YES", that's my "*PLEASE, DON'T BUY HER*" price, lol. I'll be okay with selling her at this price, but just as OKAY if she doesn't sell. I'll enjoy watching her change through maturity and am very curious to see how she will look at full maturity. **SOLD**
