

## Show & \$ell

{product id=1497}

The parents of this 2016 male Striped Amel (pattern suggests Striped Amel Motley) were a Striped Fire and a Salmon Snow Motley. Because of the RED FACTOR gene in the Snow parent, bred to a snake with these gene mutations should render some Striped Cayenne Fires? As he matures, he will surely get more red with each passing month of life?

His \$245.00 usd price includes
