Our last 2017 Scaleless Extreme Okeetee female. Now 16" long, she is eating frozen/thawed pinky mice. Her \$700.00 USD includes note: ALL Scaleless corns in the hobby toDAY (including SCALED corns that are carriers of the Scale-less mutation-aka Het Scaleless) are descendants of the original pairing of a Corn Snake to an Emory's Ratsnake (aka: Great Plains Ratsnake). Therefore, all Scaleless corns (and their scaled siblings) are inter-species hybrids. **S O L D**
