This 2013 male Bloodred Tessera is 29" long now, eating frozen/thawed small hopper mice. He should be mature enough to breed in 2015, so anyone wanting to make Bloodred Tesseras only needs adult female non-Tessera Bloodreds or Diffused for this handsome guy. For those who have seen many of the Diffused (Bloodred) Tesseras, this is an amazingly well-striped specimen. Most of them have predominantly broken striping. His \$350.00 USD price includes **\$OLD**
