#112312

Anery Tessera

Female

d.o.h. 2011

33" long on November 23, 2012

\$650.00 shipped

Comments: Superior color and size maturity.

This 33" long female Anery Tessera COULD actually be a Ghost Tessera. Not only does she have the general appearance of a Ghost, but some of her non-Tessera siblings were Ghosts. I am playing it safe by saying she is Anery Tessera, since even a Ghost Tessera is an Anery mutant.

The U.S. Dollar bill in the picture is for size and color comparison. Every computer monitor renders different colors so we put this slightly used dollar bill in the picture so you can hold one next to your computer to assess the color of the snake.

This snake is in good health (not under or over-weight, no parasites or diseases that we are aware, no injuries or defects, and routinely feeding on unaltered frozen/thawed mice).

If we have noticed that the snake listed has any temperament or behavioral issues other than human-friendly, it will be detailed in Comments above.
