

Show & Tell

Three different views of the same male Striped Motley Pied-sided (P/S) Bloodred corn snake. When maturation essentially hides all of these markings—and saturates red—imagine how stunning toDAY's featured P/S Bloods will look?

< style="font-size: 12.16px;" />

A different Striped Motley Pied-sided (P/S) Bloodred corn snake (female sibling of the first triple comparative photo).
