

Show & \$ell

{product id=1540}

The mother of this 15" male 2016 Anery corn is a Salmon Snow so he is (and shows) a blush of orange, indicating that he's a visual-het of the incompletely-dominant gene mutation, RedFactor. In different words, he possesses one of the paired gene copies for the gene mutation, Red Factor (aka: RF). His \$115.00 price includes
