This 26" female 2017 Fluorescent Amel Corn Snake is currently eating frozen/thawed fuzzy mice. She exhibits a trait that many toDAY associate with Specter corns, but a disconnection from the head to first nuchal (neck) markings has been demonstrated in many different corn snakes; both mutants and non-mutants. \$165.00 plus \$39.00 flat-rate Overnight Domestic Shipping to any of the lower-
