toDAY's **SNAKE of the DAY** (Mon. Oct. 15, 2012)

#101512

Striped Ghost Bloodred

Male

d.o.h. 2011

30" long on October 14, 2012

**\$250.00 shipped**

*Comments:* Eating unaltered frozen/thawed small adult mice. He should be breedable in 2013. Possibly het for Amel. This male is perhaps the ultimate phenotype of its Morph, being almost patternless.

The U.S. Dollar bill in the picture is for size and color comparison. Every computer monitor renders different colors so we put this slightly used dollar bill in the picture so you can hold one next to your computer to assess the color of the snake.

This snake is in good health (not under or over-weight, no parasites or diseases that we are aware, no injuries or defects, and routinely feeding on unaltered frozen/thawed mice).

If we have noticed that the snake listed has any temperament or behavioral issues other than human-friendly, it will be detailed in *Comments* above.
